

Adam Noland

Chatsworth, CA 91311 – adam.noland@proton.me – 818-437-0757

Education

California Lutheran University – Thousand Oaks, CA

B.S. Computer Science and Mathematics, minor in Physics

December 2026 (ongoing)

GPA 3.7, Dean's List (all terms)

CS: Software Engineering, Systems Analysis, Object-Oriented Design and Analysis, Operating Systems, Data Communications and Networks, Image Processing, Computer Graphics, Algorithms

Math: Discrete Mathematics, Graph Theory, Combinatorics, Calculus I-III, Differential Equations, Number Theory, Abstract Algebra, Linear Algebra

Physics: Classical and Quantum Physics, Applied Electronics, Mathematical Methods of Physics

Highlights

- Fast learner, highly motivated to solve problems and solve them well
- Great team player – strong communicator, leadership experience in classroom environments
- Strong understanding of numerous computer programming concepts at various levels of abstraction
- Strong command of mathematics in both concrete and abstract forms
- Proficient in application of mathematics to technical fields

Skills

- Languages: C(++), Haskell, Java, MATLAB/Octave, Python
- Familiar with major programming paradigms including OOP and functional programming
- Unix/*nix command line, Linux system administration, network administration
- Software development life-cycle, UML, and design patterns
- Computer hardware design concepts – logic gates, ALUs, microprocessors
- Experience in electronics design and testing with LTSpice
- Assorted high-level mathematical disciplines (see Education)
- General physics education, incl. math methods, quantum mechanics

Publications

- “Formalization and Analysis of the Face-Turning Octahedron.” Under review at Rose-Hulman Undergraduate Mathematics Journal

Presentations

- “Formalization and Analysis of the Face-Turning Octahedron Puzzle.” MAA Southern California-Nevada Section Meeting, USC (2026), CLU Festival of Scholars Poster Session (2026)

Work Experience

Mathematics Tutor

California Lutheran University, Thousand Oaks, CA

Feb. 2023-ongoing

- Tutoring university students in mathematics ranging from algebra through calculus on a walk-in basis.

Program Organizer

Los Angeles Public Library, Chatsworth Branch; Chatsworth, CA

Spring 2022

- As part of a team, devised an event for assisting disabled children in learning to read.
- Participated in the execution of the event.
